

Dall'O Grass

Technical information

Composition	100 % recycled HDPE
Dimension of tiles	50 x 50 x 3 cm
Cell diameter	50 mm
Cell spacing	28 mm
Resistor with ground	400 T/m ²
Resistor without ground	120 T/m ²
Number of clips per junction	12 per linear meter
Available colours	Black
Packing	4 Pre-clipped tiles (1m ²) - 120m ² pallet

Installation tip: leave an expansion space of around 5 cm around the edge of the surface.

Description CCTP :

Alveolar grassing tile in recycled HDPE. Elements 50 x 50 x 3 cm made up of round cells 5 cm in diameter. Distance between cells 2.8 cm, leaving the necessary space for root development and the establishment of the tillering tray. Clip joint between tiles. Resistance with ground 400 T per m². Resistance without ground 120 T per m². Black colour. Dall'O Gazon Plantcoprotec type or equivalent.
