

Dall'O Gravel eXcel

Technical information

Composition	White version : 100 % HDPE Black version : 100 % recycled HDPE
Size of tiles	1m x 1m x 2,5 cm
Internal diameter of cells	50 mm
Spacing of cells	28 mm
Mesh dimensions	6 x 6 mm
Gravel resistance	400T/m ² - ISO 844
Number of holes for ground fixing	4 holes of a diameter of 10 mm Per tile of 50 x 50 x 2,5 cm.
Type of ground fixing	Steel spiral nail (optional)
Number of clips per junction	12 per linear meter
Available colours	White or black
Packing	4 pre-clipped tiles (1m ²) - 140m ² per pallet

Steel spiral nail
7,5 mm x 250 mm
(optional)

Installation tip: Maintain an expansion space of about 5 cm along all edges to allow for material movement.

Product Description

Gravel stabilisation honeycomb tiles with 6 x 6 mm mesh in white or black HDPE. Round cells with an internal diameter of 50 mm and a height of 25 mm. 500 x 500 mm tiles with 12 clips per linear metre and 16 holes per square metre, diameter 10 mm, for fixing to the ground. Fastened with steel spiral nails (optional). Load resistance 400T / m².
